

MEMORANDUM OF UNDERSTANDING TO STRENGTHEN THE INSTITUTIONAL  
FRAMEWORK OF THE INTERNATIONAL FINANCIAL REPORTING STANDARDS  
FOUNDATION

**PREAMBLE**

The European Commission, the International Organization of Securities Commissions, the Financial Services Agency of Japan, and United States Securities and Exchange Commission (collectively referred to as “capital markets authorities” for the purposes of this Memorandum of Understanding), which together represent authorities responsible for setting the form and content of financial reporting in the majority of the world’s capital markets, and the Trustees of the International Financial Reporting Standards Foundation (“IFRSF”):

Considering that capital markets authorities are generally charged with the development and administration of accounting standards;

Considering that capital markets authorities historically have looked to private or stand-alone bodies to assist in establishing accounting standards;

Considering that capital markets authorities generally oversee national accounting standard setters to ensure that they are capable of improving the accuracy, transparency, comparability and effectiveness of financial reporting and the protection of investor interests;

Considering that accounting standard-setters should strive to keep their standards current to reflect changes in the business environment, as well as consider promptly emerging accounting issues and changing business practices;

Recognizing that the International Accounting Standards Board (“IASB”) is a stand-alone international accounting standard-setter committed to developing, in the public interest, a single set of high quality, understandable and enforceable global standards, also known as International Financial Reporting Standards (“IFRS”);

Recognizing that the IASB develops accounting standards for use by companies from developed and developing economies;

Recognizing that IFRS are increasingly used around the world, yet the IFRSF has no formal relationship to capital market authorities;

Asserting that establishing a formal relationship between capital markets authorities and the IFRSF will facilitate the ability of these authorities to effectively discharge their mandates relating to investor protection, market integrity and capital formation;

Recognizing that the IASB is overseen by an independent body, the IFRSF, which is charged with serving the public interest;

Having regard to the IFRSF Governance Review and in pursuit of constituting an effective and sound governance structure around the activities of the IFRSF;

Desiring to further enhance the public accountability of the IFRSF to support the increasing use of IFRS around the world;

Recognizing that the IFRSF has changed its constitution to recognize the role of the IFRSF Monitoring Board in reinforcing the public accountability of the IFRSF Trustees;

Affirming and supporting the independence of the IFRSF in setting high-quality accounting standards, through the IASB, for use around the world;

Desiring to help strengthen this independence by supporting the establishment of a non-voluntary, transparent and stable funding platform for the IFRSF.

Have reached the following understanding:
