Cash Flow Support for Companies in Consideration of the Impact of Suspension  
of Events, etc.

We appreciate that your association has been paying careful attention to SMEs and small businesses, but would like to ask for your further efforts to continuously offer support in accordance with the circumstances of each company by meticulously providing consultation, making loans appropriately on a timely basis, flexibly securing collateral, and altering loan conditions including deferment of payments, so that SMEs and small businesses will not face funding difficulties affected by the suspension or postponement of events and resulting refunds due to the current spread of the COVID-19 infection. Please properly inform the members of your association.
